In-Country Labs for Mexico

We are expecting big things out of Mexico and have now made it much easier and efficient to get business through. Effective immediately we will begin processing labs for Mexican residents through EILAB and LAPI with several locations throughout Mexico. LAPI will be able to perform both the labs and the paramedical exam, while EILAB will only be able to perform the labs. We will continue to use our approved doctors to perform EKGs and MD Exams.

In order to process the labs in country, we now require blood and urine on all Mexican cases. Please see the list of labs by state as well as the new Mexican requirement chart below.

EILAB Locations (EILAB can only collect and process the lab samples)
